PROFESSIONAL SUMMARY

Results-oriented Data & Business Analyst with hands-on experience in SQL, Python, and Power BI. Mechanical Engineering graduate bringing systems-thinking and process-oriented analytical skills to data-driven decision making. Proven ability to transform raw datasets into actionable business insights, build KPI dashboards, and support cross-functional stakeholders. Immediate joiner based in Bengaluru.

TECHNICAL SKILLS

Analytics & BI: SQL Server, Python (Pandas, NumPy, Matplotlib), Power BI, Tableau (Basics), Microsoft Excel (Pivot Tables, VLOOKUP, INDEX-MATCH)

Analyst Competencies: Data Cleaning & Validation, KPI Reporting, Dashboard Design, Requirements Analysis (BRD), Process Mapping, Data Visualization, Stakeholder Management

Tools: Zoho CRM, Lucidchart, Jira/Confluence (basic) | Languages: English, Hindi, Kannada, Telugu

PROFESSIONAL EXPERIENCE

Data & Business Analyst | Intellipaate Software Solutions, Bengaluru

Feb 2025 – Present

- Analyzed 50,000+ customer records using SQL & Python, generating 15+ actionable business insight reports to support strategic decisions across Marketing, Finance, and Operations.
- Designed and deployed 3 Power BI dashboards tracking KPIs for 3 business units, reducing weekly report generation time by 40% (from 8 hours to ~5 hours).
- Translated business requirements into technical specifications for 5+ client projects with 100% first-round accuracy; drafted BRDs and collaborated with tech teams on CRM enhancements.
- Identified that 80% of qualified leads were student-focused and discovered seasonal South Indian enrollment trends, enabling targeted campaigns that improved conversion rates.
- Built and maintained interactive dashboards tracking lead KPIs, demographic segmentation, and campaign performance using Power BI and Zoho CRM.

R&D Intern | Hindustan Aeronautics Limited (HAL), Bengaluru

Aug 2024 – Sep 2024

- Documented and optimized 5+ R&D operational workflows, identifying 3 process inefficiencies that reduced operational friction by 15%.
- Compiled operational metrics and performance data for management reviews; supported cross-functional coordination across R&D, Quality, and Operations.

KEY PROJECTS

Customer Data Analysis Dashboard | Power BI, SQL, Excel

- Built interactive dashboard analyzing 150,000+ UK bank customer records; visualized 12+ KPIs with regional and segment filters; adopted by 4+ departments for weekly strategic decisions.

Advanced SQL Subquery Analysis | SQL Server

- Extracted customer churn patterns and segmentation insights from 50,000+ transaction records using complex subqueries, JOINS, and indexing for performance optimization.

COVID-19 Mortality & Sales KPI Dashboards | Power BI

- Developed executive-level dashboards with drill-down filters; visualized global sales KPIs, profit trends, and mortality data for stakeholder reporting.

EDUCATION

B.Tech – Mechanical Engineering | Dayananda Sagar University, Bengaluru

2021 – 2025

Relevant Coursework: Data Analytics with Python, Business Communication, Organizational Behavior
